## Three Liquor Bills Downed in Wisconsin State Senate

# MANY KILLED IN GERMAN SOCIALIST RIOTS

### DECISIVE DEFEAT HANDED MEASURES IN UPPER HOUSE

WETS FAIL IN ATTEMPT  
TO PULL TEETH OF  
ENFORCEMENT.

CHANGE OPPOSED  
Senators Show Inclination to  
Leave Severson Act  
Untouched.

(BY ASSOCIATED PRESS.)  
Madison—Liquor bills again went down to defeat in the Wisconsin senate Thursday night, when that body killed by decisive votes three measures to repeal or amend the Severson prohibition enforcement statute.

The large dry vote against each of the proposals was accepted, by those opposing change in the present law, as preventing the death of the Sachtjen bill restricting the search and seizure clause, when that measure, backed by Governor Blaine, reaches the floor of the senate.

The Gettelman bill, repeating the entire Severson act, was killed 18 to 10. Senator Gettelman said his proposal was intended merely to correct an error in the statutes caused by the 1921 legislature. He said that "real vets" would vote for it. The drys merely asked for a roll call.

Next the Czerwinski bill repealing the search and seizure section of the Severson law was killed 18 to 9.

Then the Polakowski bill repealing the Severson law and the search and seizure section of the statutes and death 18 to 9.

A bill by Senator Howard Tensdale to strengthen enforcement likewise was killed by the upper house.

Shorter Hours for Women  
Senators voting for women employees were voted by the senate with an amendment to provide for maximum nine hour day and 50 hour week.

### GIRLS' BASEBALL TOURNAMENT PLANNED

Indoor baseball girls' teams from the junior high school will be chosen to play a tournament. It is planned that a championship contest, similar to that recently won by sophomore girls in the senior high school, will be conducted. Interest is keen with many out for the teams.

### Free State Nabs Prominent Rebel

(BY ASSOCIATED PRESS.)  
Dublin.—Con Meany, one of the most prominent remaining leaders of the irregulars, was arrested Thursday by a party of national army troops at Gurnamuck, near Millstreet, east of Killarney, it was announced Friday. This is considered one of the most important captures made in Cork county. Many participated in many of the ambushes against the British forces.

### OPTIONAL ARMY DRILL FAVORED

(BY ASSOCIATED PRESS.)  
Madison.—The Sachtjen bill, making military training optional with students instead of compulsory, was unanimously recommended for passage by the assembly Thursday night. The bill will probably come up for enactment in the lower house some day next week.

### 5 Miles of Trunk Highway 20 Will Be Built in 1923

Concrete construction work to be completed this season on Highway 20, will be on the five miles from Janesville west to the northwest corner of Section 3, Plymouth township, going out Pleasant street, as was authorized in a resolution passed last November.

The Rock county board of supervisors definitely settled this matter Thursday afternoon in the closing hours of the special April session by adoption of a resolution reaffirming the stand taken in November and clarifying the action and clearly setting forth the intent and purpose of that resolution which was amended and the amendment in turn amended.

Doesn't Settle Fight  
Action of the board does not settle the fight between Hanover and Orono and Footville, as it merely fixes the route for the first five miles. From the point in Plymouth township it may be sent through Hanover and Orono as by the old route or through Footville as the state highway commission desires.

Deciding the 1923 road work the board adjourned until June 7. The call calls for necessary before the highway 20 situation, which has cropped up in nearly every session of the board for a year and a half, was settled, the small majority led by Supervisor C. O. O'Garra attempting to take advantage of the lack of clarity of the November resolution and secure sanction (Continued on page 2.)

### TOT IS KILLED BY LIVE WIRE

Kenosha.—Death lurked in a game of tag here Thursday night for six year old Ruby Furlon, who was electrocuted when struck by a live wire while playing with a small wire, aged 10, in front of his home. Ruby leaped against a telephone pole from which an unanchored guy wire was dangling. The wire had become charged and when it brushed against her she fell over dead. Her companion, who was chasing her, stumbled over the body and was badly injured.

Girls Start Hike.—Hike work has been started by girls taking gymnasium work at the high school. Three groups took walks around the "horror" and back to the school, Friday.

### IRREGULARS ATTACK PASSENGER STEAMER

(BY ASSOCIATED PRESS.)  
London.—Irish irregulars Friday attacked the "Waterford" passenger steamer Great Western, as she was proceeding slowly down the River Suir from Waterford, says an evening news dispatch from Waterford. The steamer escaped without casualties.

### ON WISCONSIN

(BY ASSOCIATED PRESS.)  
Madison.—The Wisconsin river was nearing flood stage today and stood by rising. At Elkhart, Thursday night, an ice jam flooded the Milwaukee railroad tracks and delayed trains, but this has gone out. Below Wausau, the railroad track is flooded to a depth of two feet, but trains have gone through. At Brookhaven the basement of the mill of the Wausau Paper Mills company was flooded and the plant shut down. At Rothschild, the plant of the Marathon Paper Mills company may shut down Friday night. Ice in the river south from Brookhaven pretty well out, but there is much about that point and, this and heavy snow in the woods is adding to the flood.

### TEACHERS' PENSION AND RETIREMENT LAW IS SUSTAINED

SUPREME COURT UPHOLDS  
CONSTITUTIONALITY  
OF STATUTE.

Wife of Veteran Teacher Receives \$17,000 by Virtue of Decision.

(BY ASSOCIATED PRESS.)  
Madison.—Constitutionality of the entire Wisconsin teachers' retirement fund law, enacted by the 1921 legislature, was upheld by the state supreme court Friday in a decision denying the motion of the state to quash a writ of mandamus ordering payment of claims under the statute. The decision, involving millions of dollars on claims and affecting 17,000 teachers in Wisconsin, held that service of teachers prior to enactment of the law must be computed in determining the benefits to their estate and death.

Involves Big Fund  
The decision, written by Justice Walter C. Owen, affects six additional claims on retirement fund amounting to nearly \$100,000. It overturns the argument of the state that these claims, involving benefits for long service prior to the death of the teachers, should be denied, according to the statute, this means that eventually millions of dollars will have to be paid for prior service.

Includes Past Service  
"Although it is not expressly declared that the estate of a member is entitled to a benefit from computations for past service, we think it is plain from the entire act, considering its spirit and purpose, that the legislature intended to vest existing teachers with the same title to the accumulations for their past services that it accorded future teachers. It is the duty of the courts to give effect to the intent of the legislature in both instances," Justice Owen wrote.

Injunction to Service  
Justice Owen said "the legislature saw fit to place those teachers who were already in the profession in a class by themselves and accorded them the same title to the accumulations for past service as it accorded future teachers. It is the duty of the courts to give effect to the intent of the legislature in both instances," Justice Owen wrote.

Must Be Attractive  
The justice outlined the experience of Wisconsin, where the normal flow of initial assignments. A future market lends itself to such manipulation much more readily than a cash market.

The foregoing decision was, of course, rendered upon a specific law prohibiting trading in grain futures and there is no special law on the books.

### "All Foolishness," Hatch Says on Marathon Dancing

"It's all foolishness," said George L. Hatch, Janesville dancing master, Thursday, in speaking of the record-making dancing marathons so popular all over the country. "In my opinion, it is entirely a commercialized proposition, it is certainly not a contest or a prize fight. The participants must be trained, and just a love for dancing is no sign a girl and young man can dance for hours without end. That requires long training and perfect health."

"As for having any effect here, I doubt if anything more than talk will occur in Janesville. It should not be allowed if it is started."

### WIRELESS BRINGS HEARING TO BOY

Leo Koehn.  
To modern radio is attributed the credit for bringing the sense of hearing to Leo Koehn, Detroit youth deaf since birth eighteen years ago. Specialists' efforts to relieve him had failed. Recently he put radio receivers to his ears and heard for the first time in his life.

### HAL CALLED ON CITY PURCHASES

All Municipal Order Books  
Called in to City Clerk's Office.

On an order from Councilman A. J. Gibbons, head of the new council's purchasing committee, order books of all city departments have been called in by City Clerk E. J. Sartell and only receipts considered absolutely necessary will be purchased under the council makes definite provision for a purchasing agent or commission. In the meantime all orders must be placed by the city clerk and must be approved by Mr. Gibbons.

Under the old system, the head of each city department was supplied with a municipal order book and bought his supplies as he needed them, and wherever he wished. But with the new administration, it is understood a plan will be developed whereby supplies for all departments will be fully discussed at the next meeting of the new council, Monday night at 7:30.

### TWO HANGED FOR MURDER

(BY ASSOCIATED PRESS.)

### Red Mobs Routed in German City

BULLETIN.  
Berlin.—Eight persons so far are reported dead and more than 30 wounded as a result of the disturbances in Muelheim, according to dispatches Friday, which state that although the city has been freed from the communist grip, armed bandits are still causing trouble in the outskirts.

### BLAINE CONSIDERS INTERIM COUNSEL

Study of Tax Situation for  
Next Legislature Subject  
at Conference.

(BY ASSOCIATED PRESS.)  
Madison.—Three general income tax bills were before the joint committee on finance of the legislature Friday, all awaiting committee action before being reported to the floor. After an all-afternoon hearing on Governor Blaine's tax proposal, which business men from over the state characterized as an "unimpeachable and inequitable" bill, the committee took it under advisement.

Members of the finance body said the governor's tax bill might be considered at an early meeting and reported for action. It was said a few minor amendments to correct errors may be drafted.

A situation which Senator Anton Kueckuk, one of the conservative republican leaders, said was of "considerable importance" developed from a conference Thursday between four conservative republican senators and Governor Blaine on the tax problem.

Senator Kueckuk said that, while the governor expressed confidence that his measure would be passed by the legislature, he had been asked to consider of an interim commission to study the entire tax situation and report to the 1925 legislature, should the executive bill be killed.

Senator Kueckuk declared Governor Blaine seemed to favor the interim commission in preference to either the tax bill or Severson general income tax bill.

### AGED MAN, HIT AT CROSSING, DIES

Nicholson Succumbs Seven  
Hours After Struck by  
Train.

Injuries caused by an accident at the Academy street railway crossing at 10:50 Thursday morning, caused the death at 6 p. m. the same day of George Nicholson, 84, Janesville. He died at Mercy hospital. And the body is at Nelson's undertaking rooms, where it will remain until relatives are located.

He made his home at the Heller rooming house, West Milwaukee street. He had been a railroad blacksmith, but had been retired for a number of years.

### WIFE CHARGED WITH MURDER

(BY ASSOCIATED PRESS.)  
La Crosse.—A warrant charging Mrs. La Crosse with the murder of her husband during a quarrel in their road house, with first degree murder, was issued Friday. Mrs. Daley will be arraigned in court. She still insists the revolver was fired accidentally.

### Roads Cleared by Warmer Weather; Work Starts Soon

Milwaukee.—A few warm days have worked wonders with Wisconsin highways, especially those in the southeastern and central sections, and the roads are fast opening. According to the weekly report of the Milwaukee County's tour department.

In the far north, there is still some snow, but it is fast disappearing. Within the next week several construction jobs will get under way and from then on detours, especially in the southeastern portion, will be more numerous.

The only unobstructed trail out of Milwaukee this coming season will be highway 25.

### School Board in Special Session

Special meeting of the board of education will be held at 7:30 Friday night, according to an announcement made by President Jesse Earle, and may be a lengthy one, because of the great amount of business to be done. Payment of equipment bills and the matter of teachers' contracts will come up.

### WOODMEN INITIATE AT EMERALD GROVE

Twelve men, members of Florence camp, Modern Woodmen of America, initiated a new group at Emerald Grove, Thursday night, at which 50 from that place were present. The local officers led by the venerable consul, August Meyer, put on the initiation at which time 14 were received. Royal Neighbors served a supper after the initiation.

### 92 OIL PROMOTERS ARE INDICTED ON CHARGE OF FRAUD

FEDERAL GRAND JURY IN  
FORT WORTH BRINGS  
ACTION.

\$7,000,000 CASH  
Titanic Merger and Rich Haul  
Disclosed by Inquiry, Attorney Declares.

(BY ASSOCIATED PRESS.)  
Fort Worth, Tex.—Ninety-two oil promoters were indicted by the federal grand jury Friday on charges of using the mails to defraud.

The oil companies involved in the indictments have taken in more than \$7,000,000 in cash, and into three of the companies were merged 45 companies, which had sold \$136,000,000 in stock. U. S. District Attorney Sewell declared the investigation had disclosed.

Approximately 2,064,000 persons were stockholders in the merged companies and the companies named in the indictment.

### House Down Garey School Bill Ouster

Madison.—The state board of education was saved by the assembly Friday by the scant margin of one vote. The lower house voted, 43 to 42, to rescind the resolution in the Garey bill abolishing the board.

The vote came after more than an hour's debate, the assembly having previously refused to terminate discussion of the bill. A motion on the previous question.

Proponents of the bill based their support largely on economic grounds. Opponents acknowledged the economic advantage of the bill, but expressed opposition to abolishing the board of the state school system.

The vote is regarded as a defeat for the Blaine assembly. Governor Blaine having strongly advocated passage of the bill.

Governor Blaine openly advocated abolition of the board of education. In a special message to the legislature, and had his entire office force on the floor working for passage of the Garey bill. The closeness of the vote indicated the governor's effort was not to be reconsidered.

Charges against the normal schools for their political influence against a board which supervises their expenditures, were made by several members.

### Ireland Asks League Chair

Geneva.—The Irish Free State has applied for membership in the League of Nations.

### POTTERS GIVEN FINES, PRISON

New York.—Archibald M. Maddock, president of the Thomas Maddock's Sons company of Trenton, N. J., one of the 26 potter manufacturers convicted for conspiracy in restraint of trade, was sentenced by Federal Judge Van Fleet Friday to serve 10 months in the Essex county (New Jersey) prison and pay a fine of \$5,000.

Seven other defendants, described by the judge as members of the Essex county potter association and active participants in its price fixing operations, were given sentences of six months imprisonment in the Essex county prison and fines of \$5,000.

### THROWS SELF UNDER TRAIN

The average production per cow for the past year seems to have been more than expected, judging from the figures we are compiling. The latest having had their first annual report comes from Clark county, the Chilli C. T. A. verifies the fact that they have 12 cow testing associations in active operation in Clark county. Look at the figures and you will find that the average production of 339 cows of 6555 lbs. milk, 251.2 lbs. of fat per cow for the year.

With the assistance of Agnes McDonald we now have eleven herd books near enough completed for the year to enable us to give you the yearly average milk and butterfat production per cow. We hope the owners will take time to check over these figures and notify us where they find an error. Some changes will be made in these figures after our May test, but we believe that they are approximately correct.

**MANY REQUESTS FOR ROCK COUNTY CATTLE**

Three letters have been received during the week from western states asking for information about Rock county milking Shorthorn cattle. A California buyer is seeking one of two carloads of heifers. A Dakota buyer is looking for young heifers and steers.

**ATTEND FINANCE MEET IN CHICAGO**

Misses Marion Hamlen, general secretary; Ruth Jeffris and Alice Bates, finance committee representatives, went to Chicago to attend a Y. W. C. A. finance department conference of the Central field division, Thursday and Friday.

**DISTRIBUTE CULTURE FOR LEGUME CROPS**

Culture for legume crops is now being distributed at actual cost by the Rock county Farm Bureau. The bottles costing 25 cents are enough to treat 20 pounds of seed. The College of Agriculture sends out fresh supplies about every 48 hours to assure freshness of the culture. The demand is mainly for treating clover and alfalfa seed.

**300 WILL ATTEND JR. CLUB MEETING**

T. L. Bewick, state club leader, and Reid Murray, secretary of the Wisconsin Livestock Breeders' association, will be among the state agricultural leaders to attend the junior club meeting, scheduled to be held in Janesville on Saturday. About 300 are expected to attend.

**5 MILES OF TRUNK HIGHWAY 20 WILL BE BUILT IN 1923**

(Continued From Page 1)

For work to start at the Green-Rock county line and construction on the present route to proceed toward Janesville, Onsgard's motion was ruled out of order by the chair in view of the action taken last November, the two being decidedly conflicting.

**Now, a Quick Quaker Oats**

Cooks in 3 to 5 minutes  
The quickest cooking oats in the world

Now your grocer has Quaker Oats in two styles. One the kind you have always known—the other is Quick Quaker.

Quick Quaker cooks in from 3 to 5 minutes. And it cooks to perfection. So it is almost like a ready-cooked dish.

No other oat flakes on the market cook anywhere near so quickly. The two styles are identical in quality and flavor. Both are flaked from the finest grains only—just the rich, plump, flaky oats. A bushel of choice oats yields but ten pounds of these delicious flakes.

But in Quick Quaker the oats are cut before flaking. They are rolled very thin and partly cooked. So the flakes are smaller and thinner—that is all. And those small, thin flakes cook quickly.

Ask for Quick Quaker if you want this style. Your grocer has both. But always get Quaker Oats for their delightful flavor.

**CHOICE TIMOTHY SEED \$3.00 Per Bu.**

10 bushel lots	\$29.00
25 bushel lots	\$71.25

## COUNTY CALLS OFF TOWNSEND DEAL

Won't Attempt Purchase of Plant Now—Bond Sale Ordered.

Rock county will not attempt to purchase the Townsend Manufacturing company plant here as headquarters for the county highway department, the special committee reported to the board at the closing session, Thursday afternoon, that it did not consider it advisable at the present. The board adopted the report and the matter is settled for now.

Resolutions expressing "deep regret at the recent death of our late junior, L. M. Nelson, and appreciation for his 32 years of faithful and efficient services as janitor and his long and trusted work for the county," were passed by the board, after being submitted by a special committee composed of Supervisors M. P. Richardson, Janesville; Simon Smith, Beloit; and County Clerk, Howard Lee.

**Half-Holidays Voted.**

June, July and August were set as the months in which half holidays on Saturday may be taken by county employees in the court house, through a resolution introduced by Supervisor D. A. McCarthy and passed after the month of May was out from the motion. Employees of the county highway department were excluded.

**Edgerton Clinic Rejected.**

Claims of the city of Edgerton for \$609 for the relief of poor, in connection with expenses incurred in caring for those injured in the truck collision there in 1921, were disallowed on motion of E. P. Edred, chairman of the claims committee. The claims were not presented within the time limit.

**Frank Chubick, court house janitor, will be given a 30 day vacation this summer, and the sum of \$45 was appropriated to pay for an assistant.**

Sale of \$200,000 worth of highway bonds, Series No. 2, was authorized by the county board through passage of a resolution presented by Supervisor H. E. Moore for paying for the construction of concrete highways this year. An amount sufficient to cover the expense of the printing and sale of the bonds was ordered.

**Special Meeting June 7.**

The special June session which will be called at 10:30 a. m. June 7, through a resolution introduced by Supervisor W. S. Pettigrew, is necessary for the approval of the sale of the bonds.

The board shortly before adjourned.

by the Commission Form of Govt. on April 15th, 1918, for the use of the incoming Aldermanic Form, would compare more than favorably, with the ex Mayor's "Good Fat Budget" which he claims to have had so generously prepared and left for the new Managerial Form of Government to work from.

At all events, the taxpayer has been fully aware of the fact, that the 1918 balances in the treasury were created under a city tax of \$11.82 per \$1000.00 of valuation, with a total city valuation of \$15,722,321.00. While the present so-called "Good Fat Budget" was created under a city tax of \$21.37 per \$1000.00 of valuation, with a total city valuation of \$25,851,319.00. Tax receipts tallied—and the records of the financial condition of an institution count for reliable information.

**Get health—Keep health—Feel fine**  
by eating Kellogg's Bran regularly!

Constipation and the toxic poisonings that come from it not only take the enthusiasm out of life, making you depressed and physically and mentally dull—but they head you into disease such as Bright's, diabetes, rheumatism, etc. You can actually rid yourself of these dangers if you will EAT KELLOGG'S BRAN REGULARLY!—at least two tablespoons daily; in chronic cases with every meal! Kellogg's Bran is nature's most wonderful food. It is scientifically prepared to relieve suffering—humanity from constipation and it will do that. No other food can! Don't take a chance of "getting away" with constipation—IT WILL GET YOU! Don't ruin your health with pills and cathartics—they are as dangerous as constipation itself and give but temporary relief, at the very best!

What you should do for your family and for yourself is to serve Kellogg's Bran every day, in any one of several attractive ways, and fight constipation as you have never fought it before! AND YOU WILL WIN!

In the first place, Kellogg's Bran is delicious in its nut-like flavor, adding greatly to any cereal with which it is used. Eat Bran as a cereal with hot milk, or mix it with hot cereal before serving. Another method is to cook Kellogg's Bran with cereal.

In each case add two tablespoons of bran for each person. A popular way is to sprinkle bran on hot or cold cereal. Bran makes wonderful bakery products. Recipes are printed on every package.

Kellogg's Bran is served in leading hotels, restaurants and clubs. It is sold by all grocers.

**A Spring Tonic For Your Home**

**Noxall Fast Color Paint will Make it as Good as New**

Houses are like human beings—when they look bad they usually feel bad and that's the time for a good "tonic." If they don't get it in time, decay creeps into their joints and pretty soon it's too late.

After Winter has passed lots of houses have a forlorn, neglected aspect—a sort of all-in look. They feel that way too. What they need is a good all over painting with

**NOXALL**  
The Paint with the Guarantee

NOXALL has proved itself a good tonic for thousands of homes over a period of 30 years. People who paint with NOXALL will tell you it outlasts other paints.

NOXALL comes in many beautiful colors—colors that last. NOXALL costs less per gallon and it is a paint that goes far. You'll find it a real economy.

## YOUTH BADLY HURT AS CAR TURNS TURTLE

Robert Bartel, 21, is in Mercy hospital recovering from a fractured skull suffered in an automobile accident on the Edgerton road where it winds through the stone quarry this side of the county farm. He lives at 202 South Franklin street.

The accident occurred Wednesday night, as Bartel was riding in a light car with George Schiefelbein, who was driving. According to the story told Dr. R. C. Hartman, the car was traveling at a low speed and struck sand, swerved and tipped over. Bartel was thrown out of the car, striking on his head, and with the car partially on top of him. He was brought to Mercy hospital and is in a semi-conscious condition but will recover. Schiefelbein was uninjured.

Build a new and larger and better Y. M. C. A. building to care for the constant increasing need by reason of the influx of new residents.

### Mr. Gary Wants the Bars Down.

The president of the United States steel corporation wants the immigration bars taken down and the United States opened again to the admission of all who may apply for entrance. He bases this on a labor shortage and necessity for more common labor. One year ago there was a great abundance of labor. Two years ago 6,000,000 men and women in industry were out of work. We had an industrial holiday for almost two years. Just at this time we are entering upon the very opposite and industry in every branch is waking to the need of more men for higher production. But what guarantee have we of the continuance of this condition? Will the high prices that are following the industrial expansion and the period of inflation which is again our greatest danger for the future, undo all this and give us another holiday? If so where will the surplus labor which Mr. Gary wants, go for its food? We fully realize that the demand for labor in industry is twofold the market for farm help. If there is any need of increased immigration it is to instigate the coming of men and women who wish to work the farms or to get away from the city and the congested centers. We are receiving about all the immigrants which we are able to naturally absorb now. The outgo of foreign population has about ceased. The foreigner is not going home as he did immediately following the war. In the southwest we are receiving many Mexicans as laborers in mines and larger industries. They are poor laborers. As Secretary Davis says, "One unskilled American workman would accomplish two and half times what these men will." Cheap labor has caused the ranks of labor requiring great numbers of men in unskilled gangs. Cheap labor has reduced living conditions, made more police work, built up a criminal element, fostered anarchy and the doctrine of the proletariat. Chairman Johnson, of the House immigration committee, makes it clear and definite, when he says that our restrictive immigration laws made it possible for five million men to get back to work. In England the unemployment situation is shaking the very foundations of the British nation and there seems to be no hope of a change in sight.

Will Mr. Gary and others of his class of employer agree that if a few hundred thousand immigrants are brought here for work in mills and factories, will bond themselves to the communities to keep the immigrants and all others now on the payrolls under pay during a business depression period such as we are now emerging from? That would be poor business from the standpoint of economic sense but it is no more foolish than what Gary is asking—that the bars be let down and all come here who wish that wages need not be raised and living conditions be not bettered.

Any person reading the 44 pages of the governor's tax bill should be exempt from all taxation.

### Your Shopping Opportunity.

This is the time to hitch up the flyover and come to Janesville to do the spring shopping. All through the snow and road blockades the stores have been piling up the spring goods and never have the people of the trade territory about Janesville been able to select from such complete stocks.

We have saved about everything worth saving in Europe and now we are called upon by the former president and the English author of the League of Nations plan to save the League.

That we are an extraordinarily thrifty people is shown by the fact that we spend \$120,000 a day in the United States for chewing gum. In a day we spend \$1,120,000 for candy. We have to be thrifty in order to save that much money for these items, do we not?

It must be that the legislature has indefinitely postponed summer.

There are two branches of the Progressive party now clearly defined in Wisconsin—the Blaine party and the La Follette wing. It is a serious question which has the most harmful program for the state.

One of the first steps in placing the city government on a business basis has been taken by the council in its method of purchases. Heretofore all departments have been buying whatever

## ROMANCE OF A MARBLE LADY

By FREDERICK J. HASKIN  
Washington. For more than a half century thousands of Washingtonians and thousands of tourists visiting the national capital walked heedlessly past an artistic gem of antiquity, exposed to the full gaze of anyone who wanted to see it. Today it no longer is visible to the public and, therefore, has become the object of much curiosity. It is a statue, carved 500 years before the birth of Christ, by the greatest of all sculptors, the Greek Phidias. Its story is unrivaled for romance.

The goddess flourished in the age of Pericles, the Golden Age of Athenian ascendancy, when Socrates was expounding his disturbing philosophy and when the Parthenon was being built. Phidias was the sculptor of the great statue of Pallas Athena and of many other works of art in the plastic form. His work for 2,500 years has been held up as the marvel of all time.

As is one knows, Athens declined and had about reached its lowest pitch when, in 1814, the seventh Earl of Elgin induced the Greeks to sell some of their priceless treasures. The British peer gathered up numbers of the carvings which decorated the Parthenon, the great temple which stands on the Acropolis at Athens, as well as many other statues in various parts of the city, some of which were attributed to Phidias and some to Pheidias, a sculptor of almost equal merit and fame.

These were purchased by the earl for a considerable sum of money and brought home by him to England. Later they were sold to the British Museum where they now are to be seen, being known all over the world as the Elgin Marbles. The task of transporting the unwieldy marble statues and reliefs was no light one. This was the heavy duty of the American merchant marine when the first sailing ships of the Yankees were making chartered records for speed and reliability. So the Earl of Elgin chartered an American ship to transport the priceless treasures to the British Isles.

The transportation was accomplished successfully and the time came to pay the shipmaster for his services and those of his staunch vessel. It came this day that a man of artistic tastes and asked the earl to give him, in part payment of the ship charter, one of the statues from the Athenian collection.

The supply of marbles was generous and the Earl was well pleased with the care and expedition with which the American shipmaster had effected the transportation, so he agreed. The American captain obtained a life-size statue of a woman, believed to be from the chisel of the immortal Phidias.

He sailed back to his country with his statue and, conscious of the beauty of the masterpiece, remodelled the facade of his colonial mansion on the banks of the Potomac river, making a special niche over the doorway in which to place the marble figure.

Time passed and the Civil war came. The region in which the shipmaster's house stood became a battleground and was again and again by the armies of the Union and of the Confederacy. The mansion was taken first by one side and then by the other and frequently was the target of grilling fire. The statue was hit by bullets and chipped in many places. Finally, it was thrown down entirely.

Peace came, leaving Virginia planters poor. Old houses were abandoned in some cases and, in other cases, neglected as to repairs. Perhaps 10 or 15 years after the war, the heir of the old shipmaster's mansion found funds with which to repair it. He brought a stone mason from Washington to repair the damage of time and the war, patch up the walls and make the old house habitable. The stone mason was a master of his craft and did a good job. While working around the place, he discovered, half covered by grass and weeds which had sprung up, an old statue. Seeing it erect, he was struck by its beauty. When the work of repairing the house was completed, he told the owner he would like to take, in part payment for his work, the old statue he had found in the grass. Rather pleased to curtail the mason's bill, the owner cheerfully acquiesced and the stone mason brought the statue to Washington.

The mason, in addition to his structural work, also was a carver of tombstones and monuments. He had a stone-cutting yard across the street from the United States capitol building and there he took his statue and set it on a pedestal. He diligently set about making inquiries and finally ferreted out the old story of how the statue had come to America—of how it was in reality one of the Elgin marbles, in all probability the work of Phidias.

A craftsman who took pride in excellent workmanship and pleasure in beauty, he made no announcement of his discovery, although he could have sold the statue for many thousands of dollars. Any museum and scores of private collectors would have been pleased to pay him almost any price he might ask.

He preferred merely to keep it standing in his yard, surrounded by his own humble specimens of the stonecutters' art and the work he remained. For the most part, no one paid any attention to it. Occasionally, some one with a discriminating eye would remark the statue and make some inquiries concerning it but its owner invariably said the statue was not for sale.

On one occasion, some 20 years ago, a connoisseur of art of wide reputation passed by the old stonemason. He saw the statue and gazed on it in wonder. To his practiced eye, it stood out from the surrounding stones like a rose among daisies. He went to the stonemason's shop, asked for the owner and said to him: "Perhaps you will think that I am a little crazy, but if that statue out there is not a Phidias or a Praxiteles, it is the work of an imitator as great as either."

"You're perfectly right," answered the stonemason, "the statue is the work of Phidias." "Well, then, what is the world it is doing in a tombstone cutter's yard?"

The stonemason, recognizing a fellow appreciator of the magnificent work, told him the whole story and he since has told it in many capitals of the world.

The end of the tale is that the old stonemason died recently and his estate, including the stonemason's collection of the miscellaneous collection of tombstones, passed to his heir, a man who had no active interest in art treasures. The whole estate was put up for sale.

Even then, the old statue was not commercially exploited and many tombstones and blocks of marble were sold before the statue. Finally, the word got around among the people of Washington who knew the story—probably not more than a half dozen—and the statue was sold to Lars Anderson, former American ambassador to Japan and whose mansion at Washington is one of the national capital's showplaces. It now is among his collection of works of art.

was desired and turning the bill in to the council for payment. Now all the order books have been called in and the buying will be centralized as a beginning of a system which will be operative through all departments.

The county board's idea of a tuberculosis sanitarium is the same as old Thoreau's—the whole outdoors. The trouble about that is the "No Trespassing" signs scattered about.

Whazzis? whazzis? We are gravely told, that certain rules must be complied with before Old Curiosity can take a peep at the income tax returns of any private citizen or corporation. That's too bad for we have always wanted to see what some members of the legislature did with the enormous salary they received.

Route 20 refuses to die. It is the Tom Cat, roars of the county—P lives.

## JUST FOLKS

By EDGAR A. GUEST.

BEING GOOD TO A CHILD.  
It isn't being good to him.  
To let him have his way.  
To pamper every childish whim.  
And send him out to play.  
It isn't being good to buy.  
The candy which you should deny.

It isn't being kind to smile.  
When he is in the wrong.  
To overlook his childish guile.  
Will make the habit strong.  
It isn't kindness not to see.  
His sometimes wilful tendency.

It isn't love to let him grow.  
Untutored and untrained.  
To see his faults and let them go.  
Unchecked and unexplained.  
For often, if a child may learn,  
Love must seem very harsh and stern.

'T were better now a few sad tears  
Than many a late one.  
Better that he should through the years  
Arown that's quickly gone.  
And being good and being kind.  
Is ever keeping this in mind.

## ON THE SPUR OF THE MOMENT

By ROY K. MOULTON.

THE CIRCUS DICTATOR.  
It has come at last, the circus dictatorship. The shows now have a dictator the same as baseball, the movies, the stage and the restaurants. We really intend to do any dictating, we will say that there is plenty of work ahead of him.

Suggestions are always in order for a new dictator, czar or whatever he may be, and we hope the circus mogul will accomplish the following. But, being a dictator, probably he won't. Furnish genuine state peanuts that are three or four years old and not half state ones that merely succeed in making you sick.

Abolish the four-inch board seats the impression of which a patron carries for a month after witnessing a performance.

Retire on a pension the piece of lemon peel that has served in the tub of lemonade so long and faithfully.

Refuse to admit any old guy who claims he comes just to bring the children.

Teach every elephant to walk without grabbing hold of some child's tail.

Do not always have the most interesting stunt down in the other end of the tent.

Have popcorn bricks that can be broken with the human teeth.

Instead of having the guy ride that trick mule, give the mule a chance to ride him.

Teach the trained seals to play something besides the bass drum and cymbal. Throw them something besides fish.

Unload his animals once in awhile so the customers can see what they look like.

Put the calypso at the head of the parade for a change.

Employ deaf and dumb announcers and then nobody will try to hear what they are saying.

France is going to boycott all German music. That is the kind of brotherhood they want to get into.

## Who's Who Today

GEORGE MAURICE COHEN BRANDES  
The nations of the earth are engulfed in imperialism. Every nation is grasping for territory and trade privilege with smaller nations paying tribute to the more powerful ones. So declares George Maurice Cohen Brandes, world famous author and critic.

Brandes does not expect the U. S. He points to the American policy toward the Central and South American nations prove his point.

Brandes won fame during the World war as "the fiery neutral." He has aroused world wide interest with his writings for close to fifty years. He was born in Copenhagen in 1842, and was graduated from the university there. That city, has been his home, although he has lived in France, Italy, Russia, England, Poland and Germany for various periods.

He is an accomplished linguist and writes in the Scandinavian languages as well as in Spanish, French and German.

He is a small man, energetic and with a compelling personality. He visited the U. S. in 1914 and has since then been in America and American literature drew much attention to him.

## OPINIONS OF OTHERS

A Creed We Need.  
There are creeds and creeds. Sometimes they are the rocks on which people go down in their opinions. There is one, however, on which they should be no division so far as Fond du Lac is concerned.

It is the creed announced by the Rev. Robert Gordon in his address before the association of Commerce meeting Wednesday night.

That creed ought to be memorized by every citizen of Fond du Lac and exemplified by his attitude every day in the year.

Here it is:  
"I believe in Fond du Lac."  
"I believe in its beauty."  
"I believe in its friendships."  
"I believe in its resources."  
"I believe in its industry."  
"I believe in its vision."

Here is faith in Fond du Lac. It is the sort of faith that is built on a sound foundation. We ought to acquire this faith. It will help us nothing else can. We have a better Fond du Lac—Fond du Lac Commonwealth.

## LOOKING BACKWARD

FORTY YEARS AGO

April 20, 1883.—The largest audience that has ever been in Lippin's Music hall crowded it last night to witness the entertainment by W. H. Sargent Post, G. A. R. Those who took part in the program of songs, tableaux and talks were Chief, Elmy Norwood, Edie Norwood, Tucker Wood's orchestra, Lillian Child Delong, George Willis, C. T. Hoebel, M. A. Newman, George K. Collins, William Blodgett, Clarence L. Clarke, N. Smith and Mrs. J. B. Day.

THIRTY YEARS AGO

April 20, 1893.—No changes will be made in either the police or the fire departments, says Mayor John Thoroughgood, who took charge of the city this week.—Janesville merchants have reported \$27,000 in debts and uncollectible. The Merchants Protective association collected \$9,000 of debts that had formerly been thus classed.

TWENTY YEARS AGO

April 20, 1903.—The many athletes at the high school make the track season promising. W. B. Norris is coach.—Miss Katherine Smith, whose marriage will be an event of the near future, is being entertained with many luncheons and teas. The first high school band dance was given in Assembly hall Saturday night.—Bassett and Echlin plan to move into their new building next week.

TEN YEARS AGO

April 20, 1913.—W. H. Sargent Post, G. A. R., has completed plans for Memorial day exercises at the Myers theater. J. T. Hooper, superintendent of the state school for the blind will give the chief address.—Paving of Washington street is now being completed and work on Milwaukee avenue is soon to be started.

PRAYER ANSWERED

I sought the Lord, and he heard me, and delivered me from all my fears. This poor man cried, and the Lord heard him, and saved him out of all his troubles.—Psalm 34: 6.

## Personal Health Service

By WILLIAM BRADY, M. D.

Noted Physician and Author

PRESUMPTION OF GUILT

I health and life were as highly regarded and as carefully guarded by our police as is our property. Any person found guilty of a crime, something purporting to be a "cold" or "flu" would be subject to arrest and isolation as a suspicious character. Smith's bronchitis or quincy may cause either of these diseases or sinusitis or coryza when poor Jones gets in the way of Smith's marriage.

One under heaven can positively predict the onset of an alleged "cold" which of the foregoing two diseases it is going to be. Therefore it is extremely inconceivable that a doctor should be able to have "just a cold" to approach within five feet of other persons unmuzzled.

QUESTIONS AND ANSWERS.

Are you a myth or what? This is the third time I have written to you. Does the doctor in the office, because of Bright's disease? Is the mineral water at Cambridge Springs preventive of or cures Bright's disease? (M. K. M.)

Answer.—In some cases, hardening of the arteries causes Bright's disease. I do not think any mineral water prevents or cures Bright's disease.

Can catarrh be cured with radium? (Mrs. L. E.)

Answer.—No. Operation is the only cure for catarrh.

What a Layman Ought to Know.—Please inform me everything you think a layman ought to know about the high grade peroxide of hydrogen sold in drug stores as a disinfectant for the house, including more throat, etc. (R. G.)

The use of iodine is preferable as a first aid disinfectant and boric acid solution is preferable as a mouthwash or gargle in sore throat.

What is the best diet? That is a question that all dentists find it necessary to do all dental work over which has been done by the dentist in several years. He says this is caused by acid accumulating in his mouth from the use of milk of magnesia as a mouthwash three or four times daily may do all the rest.

Acute Pericarditis Formulas.—Please reprint the formula given in the book entitled "Get Your Idiot" (A. C. W.)

Answer.—Nevalre, nevalre. I'm often formulae for life.

Q. What is the best kind of corn? A. A. The Illinois Seed Corn Breeders' association recognizes eight distinct races of corn, which are the bases for the development of many strains produced by the farmers. As follows: Boone County White, Silver Queen, White Superior, Leaning, Red's Yellow Dent, Golden Eagle, Riley's Favorite, and Pride of the North. There is no comparison of opinion as to the best kind of corn.

Q. Is it true that practically everybody has had teeth? A. O. According to one of the schools of dentistry there are 400,000,000 defective teeth in this country, averaging about four to the individual; but there are no records to show that everybody suffers from this misfortune.

Q. What are the greatest inventions yet to be devised or discovered? A. B. Hudson Maxim says that the greatest invention yet to be made is a method of government whereby the common people may be made self-governing and at the same time be prevented from committing political and social suicide through enfranchised ignorance and avarice. The next great, he says, is a method of utilizing the human mind for power and heat and a method transmitting dynamic energy by wireless, so that from a central source motors may run hundreds and thousands of miles away. Another great invention yet to be made is a simple device by which dead people may hear.

Q. Do wild geese live to be over 100 years old? A. C. It is difficult to prove that wild geese are sometimes centenarians, but an authentic case is known of two Canada geese captured in 1865, in Chicago Bay, and still living.

Q. Is it possible for a company to try out or experiment with a trade name before registering it? F. M. C. A. Company cannot experiment with an existing law which a person or firm may try out a trade mark before actual registration is completed has been suggested by a special committee of the American Association and may be submitted to congress at the next session.

# Girl of Ghost Mountain

By J. ALLAN DUNN

Author of "A Man to His Mate," "Rimrock Trail," "The Man Trap."

Copyright by Small, Maynard and Company, and published by arrangement with McClure Newspaper Syndicate.

**SYNOPSIS.** Peter Sheridan, young New York lawyer, ranches in Arizona because of threatened tuberculosis. Chica, his ranch, is near Ghost Mountain, on which he and his foreman, Red Jackson, discover a woman, though how, never to be a ghost. At Metzal, the nearby town, Hollister, rustler, and bad man, attacks a Chinaman who is rescued by Sheridan and installed as cook at the ranch. Later Sheridan is aware that Ghost Mountain is inhabited by a young woman named a giant Swede maid, Thora. Hearing that Hollister and his gang are going to raid the place, Peter and Red plan to rescue the woman. They make their way to the cabin on the mountain and are entertained. The raiders arrive and are Red waits by the woman.

"Your coffee-and-doughnut call, you mean." She laughed and gave him her hand. "Thank you again. We shall hope to see you soon." "What's the name of your business?" asked Red as they got their horses from the shed. "A social convention, Red, seldom used west of the Mississippi, save in cities. I'll be here some morning."

"Humph! Pretty social convention here tonight, at that. Member what I said about 'Music bath charms' to soothe the savage breast? She worked outside of Hollister. He's just plain skunk, that hombre. I've got a hunch that idea of yours about the gate is a good one."

"You'll come over some morning with a wagon and fix it, Red. Come on." They pressed blunt rowels to their horses' flanks and soon caught up with the rest. There was a good deal of chaff going on as they rode down the terraces to the tunnel but Sheridan did not hear anything lacking in respect or admiration. Hollister was silent. At the tunnel he went first, spraying the way with an electric torch he had brought from Metzal. The others trailed closely. Sheridan and Red in the rear. They were with the cavalcade, but not of it.

Out of the mountain, riding to wards Fioche. Gaps, they let the horses stretch to a gallop. On the wagon road they slowed down. Hollister began to make remarks that brought laughter from those nearest to him. Hollister, of a kind that Sheridan did not fancy. He and Red pressed in closer to the leader who was trying to regain prestige. He noticed them, turning in his saddle, and raised his voice.

"Coffee—coffee and doughnuts! Hell!" he said in derision, up-ending the flask he had carried and flinging it crashing on the rocks of the stream. There had been more or less drinking going on since they had left the upland meadow.

"Didn't you like them doughnuts?" asked Jackson quietly. "I noticed you took two." "Just to make sure how punk they was. What's it to you?" "I'm sorry you don't like doughnuts, Hollister. Becoz I'm aimin' to get a dozen, not the kind we eat tonight, but a dozen from Fioche. The staler they are the better. And I aim to feed 'em to you, one at a time, 'bout coffee, or water, and 'between each you can tell me jest how much water was the ones you had fed you tonight, you figurative swine."

It was a challenge and an insult. There was small reason to that. It was a mere threat without purpose behind it. Red's voice, light enough, but unusually distinct, precluded that. Hollister glanced at him, seemingly undecided whether to take issue immediately. Drink was mounting in him but he was the type that goes into action better after a wordy skirmish.

"An' what'll I be doin' all that time?" he asked. "Four-flushin', as usual," answered Red.

Hollister laughed but his laugh was drowned by the rest. He had

## Heart and Home Problems

Lectures May be Addressed to Mrs. Thompson, in Care of the Gazette.

BY ELIZABETH THOMPSON.

Dear Mrs. Thompson: Please tell me if upon entering a dance hall you should begin dancing at once?

Who should suggest the dance?

When a gentleman gives a girl a box of candy should she open it while he is there?

PANSY.

If there is a host or hostess, greet them before beginning to dance.

The dance is suggested by the gentleman.

The candy should be opened so that the gentleman giving it can enjoy it too.

Dear Mrs. Thompson: I am a high school girl 18 years of age and am considered "good looking" by my friends. I have many admirers. One night I was surprised to hear that two of my admirers had come to blows over me. I have never done anything to encourage these boys, and yet they both claim me as their own. I would be grateful for any advice.

VIOLET EYES.

Tell the boys that you do not belong to them, and unless they stop quarreling over some one who is not theirs you will stop seeing them.

Dear Mrs. Thompson: I attend church, am 49 years of age, and would like to get a friendship with a middle aged woman or widow. I have no small children. I have a good home. Please tell me how to form such a friendship.

HEART-BROKEN.

Look about you at church and doubtless you can find some woman who would be glad of your friendship. Perhaps you think there is no one who will interest you there, but if you try to take an interest and think you will find some very good friends. I really cannot help you because it has proved unsatisfactory to

give out names and addresses from my column.

Dear Mrs. Thompson: There are two boys, one of whom I love dearly and the other I don't. Mother and father object to the one I love because he is poor and hasn't a car. The one I don't love has a car. Mother and father want me to go with him. They say that I will have to sit at home while the rest are having a good time. I could never enjoy myself in his company. Please tell me which to go with. Should I obey my parents in this affair?

PANSY.

You have not stated your age. In affairs of the heart it is helpful for me to know the age of the person questioning. I think, however, in your case it would be very unwise to go with a young man you do not like simply because he has a car and can do more for you than the one you love. Only too often the boy without money makes more money when he is a man than the son of wealth. Besides money does not guarantee happiness by any means.

Dear Mrs. Thompson: I am a girl of 18 and a senior in school. Do you think it would be proper for me to give a graduation gift to each member of the class? I am doubtful concerning the boys. (Should I present them with a gift also? What kind of a gift would you suggest? There are about 17 in the class.) ANXIOUS.

Don't you think that in giving a graduation gift to each member of your class you would be starting something which might be considered an embargo very soon?

I do not see any real reason for your doing this.

## YOUR BABY AND MINE

By MYRTLE MEYER ELDERED

Register and Tribune Syndicate, Des Moines.

Mrs. Eldered is happy to advise all mothers about the care of their children of any age, on any subject which does not belong in the field of the doctor.

The small booklet, "Care of the Baby," may be had by sending a self-addressed stamped envelope and asking for it.

HOT WATER AND CONVULSIONS.

Convulsions are more prevalent in summer than in winter for the very good reason that the mothers are liable to allow too many different kinds of food in the summer and the relation of strange food and hot weather to digestive disturbances, and digestive disturbances to convulsions is very close. The child who takes a hearty meal on too ripe fruit, who

stuffs with highly flavored rich ice cream confections and cookies may next day or that night be the victim of spasms. No matter how trivial the cause, spasms are always dangerous and to be avoided, as one attack leads more easily to another. The child who becomes habituated to spasms may have one at every rise of temperature above normal, no matter what the cause.

A hot water bath, mustard in the water and cold cloths on the head are the standard procedures. Be sure the water is not above 105 degrees F. and the mustard is not mustard to five gallons of water. Have the child well covered with the water and do not keep in the tub longer than 10 minutes. When he is taken out he should be put in bed and warmly covered so that a profuse perspiration will be readily induced. Keep a cold or lead cloth on his forehead.

When he is conscious again give him a cool enema to relieve the clogged bowels and a dose of castor oil to clean the bowel tract. So many cases of the spasms are due to the condition that it is always a wise thing to do. Later the doctor may discover another cause but the dosage will have done the baby no harm and may prevent another spasm.

Light food should be fed for several days and the baby kept in bed. Spasms are a fearful strain on the nervous system and the child is in no condition to either eat or play about as usual.

NICELY WAVED HAIR.

There is not a bit of use telling young girls that straight hair is more becoming than curly. If they haven't curly hair they are almost certain to want it, and I must admit that there are times when a certain little wave, artificial or otherwise, is a great blessing. When you are on a journey, for instance, and must do your hair up hastily in a Pullman car, dressing room, or when you are tired and the face is full of draggish lines, or when you must dress hurriedly and cannot stop to put each lock of hair where it places you best—these are some of the times when wavy hair is a delight.

Don't ever, if you can help it, wave your hair with a hot iron. It dries the hair and eventually cracks it, and though it may be used in emergen-

cies, it should never be made a general practice. If you must wave your hair frequently roll it on kld or rag curlers. These take more time than the iron, but they do not hurt the locks and they produce a soft natural looking wave.

Part the hair just as you do when drawing it, then take small strands along all the outside part where it shows, moisten these slightly and roll them tightly around the curler. Some low, is visiting here, Mr. Clayton Jackson, a kindly and sympathetic old gentleman noting his active dejection asked him what he was crying about.

The answer was: "want pa and ma to take me to the moving picture show."

"Do your father and mother usually take you to the moving picture show if you cry?"

"Sometimes they do and sometimes they don't, but it ain't no trouble for me to cry."

The clergyman felt annoyed to find that an old gentleman fell asleep during the sermon on two consecutive Sundays, goes a Judge story. So after

service finally he asked the boy who accompanied the sleeper into the vestry.

"My boy, who is that elderly gentleman you attend church with?"

"Grandpa."

"Well, if you will keep him awake during my sermon I'll give you a nickel each week."

For the next two weeks the old gentleman was attentive to the sermon. The third week, however, found him soundly asleep again.

The vexed clergyman sent for the boy.

"Didn't you promise to keep him awake if I paid you a nickel a week?"

"Yes, but grandpa now gives me a dime not to disturb him."

A feminine voice was heard from the steps of a crowded car. "Oh, get in dear, some one will give you a seat." The next moment two young women entered.

The men were on their mettle. They read papers sternly. Those who had no papers closed their eyes and pretended to slumber.

The too-certain woman glanced down the car in vain. The car went for half an hour and then a man alighted.

"There's a seat for one," said the conductor.

"Don't take it, dear," said one of the young women, "some man will want it."

In the moment of defeat she triumphed," adds the Pittsburgh Sun.

# Dabson-Knuth Jump Into Doubles Lead of City Pin Meet

## HIT 1,208 COUNT; DABSON IS SECOND IN SINGLES EVENT

### Busy Man's Sport Page

By FRANK SINCLAIR

A general shakeup in doubles and singles standings in the city bowling tournament on the West Side alleys came forth from the squads that swept the drives Thursday night. No fewer than 13 games were rolled. The men were bothered by perspiring hands due to warm weather.

"Chet" Dabson and "Bob" Knuth, members of the Gazette No. 2 quintet, displayed lumberjack prowess Thursday. Dabson had 13 fives for an actual count of 1,079 and, adding a handicap of 129, sped smoothly into first place in the two-man division with 1,208. They gathered 40 more strikes than the former leaders, North-Western, who are now in third.

A new second place couple in this section also came into being. Mumma-Piper of the Shurtless Ice Cream store, the winners for the tally of 1,185 (actual 952). This pair held first place for four minutes Thursday, but failed to continue the pace.

In his three games paired with Knuth, Dabson had 12 strikes, 12 spares, five splits and two blows. Knuth had eight strikes, 17 spares, one split and six blows. Dabson's third game totaled 215, with a mark in every frame, in the second of which he picked a difficult split.

Dabson of the same pair, smashed the wood for 606 tally for second place in the singles. His real count was 546, with 219 in his second game made on four strikes and two spares, a felled up split and one blow, the last coming in the ninth frame.

Whittier-Benkert, former second place holders in doubles, now are fifth. K. Jeffries-E. Kohler of the Rotary club have shot into fourth place with 1155. Now sixth, seventh and eighth places respectively are now held by Kueck-Mead with 1,113; G. King-Fifield, 1,072 and C. Black-Warner, 1,055.

Only three of the former holders of places among the first 10 in singles remain within the exclusive gathering. Westerlund still is undisturbed as leader of this company with his 617 count. "Rhiney" Benkert gathered 599 for third. Hjorth, the only other of former occupants, now is fourth.

Fifth, sixth, seventh, eighth and ninth are now held respectively by the following: Knuth, 587; Black-Mead, 570; Schilling, 573; and Mumma, 570. In the tie for sixth, Mead had an actual count of 559 and Black, 558.

During the singles rolling Thursday, Knuth picked up the 6-7 split. Parker Pen and Kiwanis boosters are on the drives Friday.

DECISIVE DEFEAT HANDED MEASURES IN UPPER HOUSE	

## BRINGING UP FATHER

## Even Great Men Fall; Ask Tris

Cleveland.—It is not often that this speaker, star outfielder of the Cleveland Indians and one of the brainiest players in the game, pulls a "bone" but the players got one on him in the 10th inning of Thursday's game between the Indians and the White Sox.

Speaker was on first and Wamby on third when Guisto grounded to Johnson. The Sox shortstop hit a throw to the plate, and then tossed to Eddie Collins, who threw home to head off Wamby. Believing he had been retired, Speaker started off the field but Collins was not on second base and had Speaker kept on going he would have been safe. Before his team could make his under stand Schick whiffed the ball back to Collins for the out.

It probably cost the Indians a run, which would have ended the game the same way followed with long single to right.

## GET INTO GAMES; PLAY THEM HARD

Madison.—"Get into the game, play it hard, play it square, play it often and you'll live happily ever after."

That plea was made by Dr. J. C. Elson, of the department of physical education of the University of Wisconsin Thursday night via radio.

Dr. Elson, national boy scout commissioner and noted authority on recreation, declared American life has so changed in the last 100 years that most people are confined indoors by their occupation or profession, demanding nervous concentration and little muscular exercise.

He dwelt upon the strong and sturdy lives of our ancestors who had to do for themselves by pioneering. He declared the automobile, while a boon to humanity in many ways, is spoiling appreciation of outdoor life and scenic beauty. The speaker urged a combination of motorizing and hiking as refreshing and restful.

FROM MADISON Thursday night was broadcasted the second speech on athletics in two weeks. This time Dr. J. C. Elson of the "U." who spoke here a year ago at Rotary, dwelt upon out-of-door recreation. Stressing the fact that our ancestors lived sturdy lives because of pioneering and therefore had little use for athletics, he urged the public to make use of every recreational facility in its own community. "At the same time," the writer was talking on this very subject before the Lion Club. The point is this, time taken for a little game of any physical nature is a life saver for every individual.

Brooklyn's ninth inning rally against Philadelphia got two runs, but lost—Cardinals and Cincinnati put on heavy smiting contest, St. Louis winning after each team scored four in ninth—National leaguers have made 12 home runs in three days against five in American in two.

Kelleher of Cubs and Dykes of Athletics hit homers. Two for each in two days—Kamm, coast star with White Sox, scored one run, drove two hits, sent runner home, and accepted four chances without slip.

Walker of Phillies had perfect day at bat against Dodgers, four hits in four at bats, two being doubles.

Hornsby, leading batter of Nationals, starts with three hits in four times at bat, two of them triples.

Four home runs were made in Cuyahoga park, Kelleher and Miller bagging one each for Cubs and Reb Russell and Tierney driving ball into bleachers for Pirates.

Clarence De Mar wins 25 mile marathon at Boston.

## "Ikes" to Protest Every Black Bass

Chicago.—Isaac Walton league of America, went on record in support of a plan to prevent the extermination of black bass in the United States, at its first annual convention here Thursday.

The first step suggested was an appeal to congress to adopt a law regulating the shipping of bass by commercial fishermen.

The convention will consider fishing through ice. Delegates claimed that by this method fish are destroyed in greater number than any other way. Wisconsin delegates announced there were now before the legislature of that state measures providing for closed season from Dec. 1 to the opening of spring spawning. They predicted the measures will be enacted into law.

Clark Yonke, attorney of Indianapolis, was elected permanent chairman of the convention, Friday nomination and election of national officers will take place.

City May Land St. P. Pin Meet

Janesville may get a third howling tournament next year to run right after the state men's meet, and the state women's meets are concluded. The Chicago, Milwaukee and St. Paul railway annual tourney, held this year at Milwaukee, may be brought to this city. Voting is now in progress. Both Milwaukee and Madison have voted to send the meet to the Bower city.

Local League Heads Meet Friday Night

Captains and managers of the proposed Industrial-Business league teams will meet at the Y. M. C. A. at 7:30 p. m. Friday. Rules will be brought up for adoption and plans for a schedule made. It is again stated that the first eight teams to file their 10 entry fee will be accepted as members.

Black Cat Lot to Shed Water

Work has been started getting the local Black Cat baseball diamond on North Washington in shape for the opening of the southern Wisconsin league season here on May 12 with Port Adkinson. Workmen are now rolling out the outfield.

The diamond will be changed into a "tuff-back." The infield will be raised a foot. This will serve as a better water shed and on though it rains until noon, it is expected that the field will hereafter be in shape for playing the same afternoon.

Practice will be held on the lot Sunday afternoon. All baseball players of the city desiring to land a berth with the club are invited to be on-hand to show their stuff.

Almesting is to be held next week.

## County "Y" Has \$5,000 Budget

Directors of the county Y. M. C. A. in monthly session at the local "Y," Wednesday night, adopted a budget calling for the expenditure of \$5,000, or about \$500 additional to what was called for in this year's budget. Plans were made for the county convention May 7 at Milton union high school. Two hundred are expected to attend.  
Nine hundred copies of the second issue of the high school publication, the "Reflector," were published Thursday, and went just as fast as the first issue did a week ago. Interest is increasing daily. The ex-

change with other similar publications in the state is being started. The paper this week shows the result of the experienced gained in printing the first copy. Make-up is good, while the news stories and headlines are written with an expertness that comes as a result of the study in the two journalism classes, from the ranks of which the chief workers on the paper have been taken.

News stories this week are of past and approaching events. Editorials are on class meetings, which seem to be rather poorly attended, and on the first copy of the paper. In addition there are poems, literary efforts, jokes, and society events. Plans have not been made yet for subscription rates, and there may not be any. The cost of the paper will run close to the price of 5 cents being asked and to make a special rate would be poor business. It is felt, especially as an extra-large edition is being planned for graduation week.

## PROSPERITY JOLTS TAMALE BUSINESS

Chicago — Prosperity has bankrupted the "hot tamale" business here and has caused the disbandment of the Hot Tamale and Red Hot Salesmen's union, Ben E. Parker, organizer for the hotel and restaurant employees' union, announces.

## Bishop Webb to Confirm 18 at Trinity, Sunday

Bishop William Walter Webb of the Milwaukee diocese will confirm his seventeenth class in this city at 10:30 Sunday morning when 18 will receive holy communion at Trinity Episcopal church. The class has been training under the Rev. Henry Willmann since the first of the year. It is a larger class than usual.

Bishop Webb will conduct the services at holy communion at 7 a. m. when all who have been confirmed by him were asked to write in corporate communion and to renew their pledge of confirmation. All other members of the parish who can be asked to attend this service. The bishop will arrive here Saturday night and will be entertained at an informal reception at the parish hall, division street, at 8 p. m. A committee from the Women's guild will serve refreshments. He will go to Beloit Sunday afternoon to talk at the college, and confirm a class at St. Paul's church in the evening.

## "Y" FOREIGN WORK DRIVE POSTPONED

A drive for funds to carry out the

Y. M. C. A. foreign work program will be made before the month is over, according to J. A. Steiner of the local association. While it was planned to have the drive the middle of the month, it was found impossible to secure the desired speakers and the drive was postponed for week or two.

## Y. M. C. A. IS SCENE OF MANY ACTIVITIES

Wednesday was a busy day at the Y. M. C. A. with every available space occupied most of the day from morning until late at night. A staff meeting in Secretary J. A. Steiner's room at 9 a. m. started the day. At noon there was the business men's gym class and the noon shop meeting at the Chevrolet plant, conducted by the Y. M. C. A. In the afternoon there was the swim by the junior and senior gym classes, two men's gymnasium classes, a meeting of the advisory committee of the Y. M. C. A. In the evening the H-Y club met, the city boy work committee also met, there was a radio demonstration in the boys' department, the county Y. M. C. A. board of directors held its monthly meeting, J. A. Steiner and a young men's Bible study class met in his office, and a similar group of younger men met with J. C. Koller, industrial secretary, and there was a meeting of the city baseball league committee.

## Miss Janesville Says:

If the raucous voice of the alarm clock sounds less unpleasant at one season than another, this is the time.

Windflowers made their appearance this week on the lapels of many citizens and on a number of desks, due to the activities of Rev. Henry Willmann in exploring Spring brook. He placed the first windflowers of the season on the Paul farm Tuesday and visited other sections Thursday, obtaining a large bunch.

Police men, appearing on the streets without overcoats this week for the first time since last fall, have already noticed several tourist parties going through Janesville. Patrolman Con O'Leary reports having seen two cars from Colorado, while others have seen cars from states close to Wisconsin.

The correct name for the windflower, the anemone, is *Anemone*. The genus *Anemone* includes nearly 100 species widely spread throughout the temperate regions. The white wood anemone, like the similar American, is abundant in marshy woods in spring. The many-colored spring anemones of horticulture are varieties of the poppy anemone, introduced from the Mediterranean at the end of the 16th century. This anemone is considered one of the plants meant by "illy" in Biblical references. The autumn flowering species is the A. japonica.

## Boy Scouts Are Given Promotions

Five boys were advanced to the rank of tenderfoot and nine to second class, the former receiving badges and the latter certificates, at a meeting of St. Mary's scouts at that church here Wednesday night. Scout Executive M. B. Sachett, Beloit, conducted the investiture examinations.

The new tenderfoots are Robert Crook, Philip Joyce, Harry Knipp, Norbert Noble and Edward Reed. The tenderfoots advanced to second class are Carl Baar, Frank Baar, Harold Browne, Lawrence Goethe, Arthur Hansen, Gerald Monaghan, Joseph Page, Francis Padell and Thomas Smith.

The Rev. Charles M. Olson of St. Mary's spoke on how scout training helps boys to become good citi-

zens. Scout Executive Sachett traced the growth of scouting to its present enrollment of 500,000 scouts with 100,000 men giving their voluntary services. He complimented William Heider on the work accomplished by the troop.

Parents and others interested on scouting were present. St. Mary's orchestra furnished the music.

## Call for Bids on School Grading

Bids for grading work at the new high school site are being asked for by the board of education, and will be received by City Engineer C. V. Kerch

any time up to 1 p. m. May 3. Specifications can also be had from Mr. Kerch. The plans are to excavate most of the ground to a level three feet below the present sidewalk. Bids on the sidewalk work will soon be advertised for.

In trying to get his rights many a man goes at it the wrong way.

## Recount Shows

## Poll Still Tie

Elkhorn—The Janesville Junction canvassing board recounted the votes cast at the spring election for members of the town board and the results shows the same as made at the time of the election, with 228 each for J. Janquist and J. Katzenburg. A recount was asked by Katzenburg who had lost when the tie was apparent before. Considerable interest was aroused in the village. The recount was made at the office of County Clerk Grant D. Harrington by the election board composed of B. J. Bill, Jr., A. W. Hyde, Mrs. L. Z. Swanson, C. G. Ford, Mrs. Matta Bill, Mrs. Sarah Diegen and H. B. Zastrow.

## SNODGRASS SOLOIST IN MILTON CONCERT

Milton—The Milton college symphony orchestra, featuring Dr. Thomas J. Snodgrass, Janesville, baritone soloist, gave its second concert of the season Wednesday night in the college gymnasium-auditorium. Dr. Snodgrass sang "Danny Deever," in conjunction with the Milton College Men's Glee club, accompanied by Miss Grace Murphy, Janesville. He also sang a group of songs by Sidney Homer, all of which were received with enthusiasm by the audience of local music lovers.

The 25-piece orchestra, conducted for the second year by Prof. L. H. Stringer, played such classical masterpieces as the Andante from Beethoven's Fifth Symphony, Schubert's Marche Militaire, von Suppe's Post and Pasant Overture and Tchaikovsky's Overture from William Tell. Thursday night the orchestra will play in Fort Atkinson.

## NEW DEPARTURE IS SEEN IN ASSAULT ON SUGAR FUTURES

(Continued From Page 1) The injunction just filed, however, predicated this on certain provisions of the Wilson tariff act which prohibit combinations and conspiracies with respect to import purchases and also on the famous provision of the Sherman anti-trust law which makes it an offense to engage in operations "in restraint of trade."

Although transactions occurred on the sugar exchange during February of this year, involving 2,515,050 tons, there was actually delivered according to government records only 900 tons. All the rest were "paper" sales. The government claims that these speculative transactions tend to keep up the price of sugar to the detriment of the consumer and wants the operations of the sugar exchange brought to an end, arguing that during the war from 1917 to 1920 the operations of the exchange were suspended by the United States food administrator, and that throughout American history trade in sugar has been carried on without the sugar exchange and the Sugar Clearing association, except for the three years preceding and three years following the world war, and that its economic utility is therefore open to grave doubt.

Two Million a Week Every advance in the price of sugar of one cent a pound costs consumers approximately \$2,000,000 a week, according to the department of justice statistics, and "any artificial manipulation of the price of sugar interferes with the business and restraining the interstate and foreign commerce of the United States."

Naturally the democrats who have been insisting that the Jordan tariff act was in a measure responsible for the high price of sugar, will keep on contending that the tariff wall was a factor in stimulating speculation and that the speculative process did the most, but the administration hopes by its legal action to put an end to speculation altogether so far as it relates to sugar. Criminal prosecution is under consideration, too, and the strategy of the government is to obtain a drop in sugar prices by psychological, if not by court action, for the argument was the latter will take many months and may ultimately have to be carried to the highest court in the land, as no doubt the sugar speculators will contend, as did the board of trade in Chicago, that dealings in futures should not be interfered with because a large part of the future trading is done by speculators who make a study of the market conditions affecting prices and trade to profit by their judgment as to future prices.

The Injunction's Use The evolution of the injunction in America's economic and industrial history ever since the Sherman law was put on the statute books in 1890 is significant. First, the injunction was used to stop the Pullman railway strike of 1894. Then Attorney General Palmer used the injunction to get coal for the American people, basing

his action on the war time Lever law. Attorney General Daugherty went back to the Sherman law to stop the shopmen's strike and insure transportation for the American people. Now he is trying to use the injunction to give the consumer food at a reasonable price. The government enters court on behalf of the whole people with a petition in equity.

In other words, the power of the federal government in the last generation is gradually being used to get for the people their necessities of life—transportation, fuel and food—and any group of individuals or corporations, traders, employers, merchants, employees or traders who interfere are being fought by the United States government itself. The sugar injunction is the latest and most radical step of all and if sustained will have ramifications throughout other lines of business, for the price of sugar is important not merely to the householder for use in coffee and tea, but in many industries having to do with the canning and preservation of fruits, confections and other food-stuffs.

### CONSERVE SUGAR, GROCERS ADVISE

Local Merchants Want Price Lowered from 10 and 11 Cents.

"Buy only what sugar you need from day to day," is the advice of local grocers, who are warning the community at heart, are attempting to aid in lowering the extremely high price of this commodity. The price has again advanced in the last few days, with the result that it is now selling for 10 and 11 cents per pound. A concerted effort on the part of the consumers, by using only what is necessary will force the speculators to lower prices, grocers here say.

Out of proportion. Despite threats by government officials against speculation in sugar, the speculation has continued and has forced the price of sugar to highest level since directly after the war, grocers advise. The high price now evident is especially out of place when other foodstuffs are considered, they say, as they are now at reasonable marks. In 1918 when sugar was selling here at 21 cents per pound and more, other foodstuffs were selling in proportion. Grocers are unanimous in declaring 10 and 11 cents an exorbitant price for sugar.

Four crops in Cuba and disasters of any kind can not be claimed as the cause of the high prices, they say. It is purely a speculative proposition. Big dealers in sugar stored up the product in warehouses of New York and Chicago, held it until the price went up and are now letting it out in small lots, it is explained.

Greenstuffs from the south are now beginning to arrive, together with balmy winds from the same direction, and prices of fruit are expected to have the underlying many changes. Strawberries become redder and riper, consequently sweeter, but the price has also advanced at little, and pinks are now bringing 30 cents. They come from Louisiana. Some out-door cucumbers from Florida are in market at 10 and 15 cents each, while the hot-house variety still bring 25 and 30.

Other new things in stores for the week-end trade are peas, selling for a quarter a pound, green beans at 15 to 20 cents and asparagus at 15 cents a bunch. Cauliflower, for Saturday will be all the way from 15 to 35 cents, according to size.

Tomatoes, 25 and 30. Tomatoes from hot-houses, the only kind in stores here as yet, bring 25 and 30 cents per pound, but have not that flavor that home-grown ones will have later in the season. Green peppers bring all the way up to 8 and 10 cents each.

Following are some of the other commodities that will help in arranging a pleasing diet:

Radishes, shilling a pound; carrots, 10 cents; apples, 4 pounds for a quarter; oranges, 43 up to 60 cents per dozen; lemons, 40 cents; bananas, 12 cents a pound; grape fruit, 5 and 10 cents each; spinach, 10 cents a bunch; rhubarb, 15 cents per pound; celery, a shilling and 15 cents per stalk; head lettuce, all the way from 5 to 15 and 20 cents per head; lettuce, 25 and 30 cents per pound; new cabbage, 5 and 10 cents per pound, and sweet potatoes, four pounds for a quarter.

Prices ranging from 25 to 30 cents, the price as prevalent for some weeks past, are being asked for fresh eggs which are now probably as reasonably as they will be all year. Butter is being sold for 47 and up over 50 cents per pound.

### Outlines Plans for State Meet

Promising fullest support to the state pin meet to be held here for five weeks next year, members of the local Lions Den, which met at a cab-fest at the Lawrence cafe Thursday night, twenty attended.

Addressing the club on next year's tour, Dr. S. T. Richards, secretary of the Janesville Bowling association and local member of the state executive committee, predicted 1,200 teams will be seen on the Green & Newman alleys here at the 1924 classic. He declared the method to be followed in getting Janesville's promise of 600 teams will be to conduct a drive next September to produce entry money on a two-payment plan, then to get the 3,000 men. An executive head with a committee of 25 men will be formed. Each of the 25 men will line up 25 others, each of whom will procure a team.

"Jimmy" Croak, president of the Industrial-Commercial league, called for cooperation from every citizen organization in the city to sell the meat to the people of Janesville. The athletic situation in Janesville and the value of participating sports in developing the city were discussed by Frank Sinclair, sports editor of the Gazette.

Other speakers were W. T. Clark, president of the Lions; Fred Campbell, Dr. C. H. Foote, Otto Bach, A. J. Huebel, W. E. Moody, Henry Casey, William (Dad) Nye was toastmaster. Music was by George Hatch.

### Junior Bands Are Greeted by 1,200

Three high school bands made their official appearance in concert at the high school Thursday night, and were enthusiastically greeted by the audience of 1,200 who almost filled the immense auditorium to capacity. The bands have appeared a number of times previously, but this concert was put on under their own auspices, and to raise money for instruments and uniforms. A considerable sum was netted.

The program, while long, was versatile and brought out the abilities in ensemble and solo playing. Ralph C. Jack, leader, was the butt of a great deal of the applause following each number, and wonder was expressed by a great many that such an excellently-playing organization could be perfected in such a short time and with so little previous training.

Second junior band, composed of boys and girls who have had but seven lessons, was presented first, followed by the regular junior band. The senior band and then the band ensemble played a number of selections. Between these numbers were solos by Herbert Helse, Graham Butler, Walter Spooner, and Audin Eneholz on the saxophone; Frank Fisher, Leo Biers and Gordon Schulz on the cornet, all accompanied by Mrs. Jack.

Continued applause greeted all the numbers, while the explanation by Mr. Jack of the various instruments was interesting. The most popular numbers were "The Star Spangled Banner," "Janesville Will Shine Tonight," and "On Wisconsin."

A motion picture, "Number Please," with Harold Lloyd, completed the program.

### FLYING SQUAD ARRIVES FOR 3-DAY DRIVE

Why are they here? Frank S. Regan, Rockford, former member of the Illinois legislature, will endeavor to form Janesville into a flying squad Sunday and Monday, in talks at the First Baptist church. Regan is the first of four speakers who are to appear here Friday, Saturday and Sunday under auspices of the Flying Squadron foundation in the interests of law enforcement. The meetings are open to the public.

Mr. Regan will devote his talk to the effects of prohibition on taxes; he will mention tax dodgers; he will have something to say on maladministration of taxes of cities by the sympathizers. His subject will be "The Fool Taxpayer." He will also remark favorably on the national soldiers' bonus.

Friday night's meeting will start at 7:30. On Saturday, James H. Woertendyke, lawyer and orator of Chicago, will talk at 2:30 and 7:30 p. m. Sunday, the Rev. Norman C. Brown, pastor of the First Baptist church, will speak at 10 a. m. and 7:30 p. m. Oliver Wayne Stewart, president of the flying squadron, will address at 3 and 7:30 p. m.

### DON'T PUT AWAY OVERCOATS, IT'LL BE COOLER, SUNDAY

The abbreviation that we found after rummaging in the dresser, Thursday night, and tried out on Friday is going back to the top of the drawer. The Weather Man down at Chicago wired this newspaper, Friday morning that he expects with Mr. Reed that by Sunday it will be cooler again. Miss Janesville says she thought there must be something hazy about the way Miss Gaudie Spring has turned a flipper, sinking in and out of peaceful Rock River valley.

The engineer of the juice generators down at the electric plant came across with the dope at noon that Mercury is having a swell time, having expanded to 72 degrees from a start of 58 at 7 a. m. He added to him that 78 would be reached by 3 p. m. for another season's bustle.

With the visit of Spring, Rock river continues to take a rest from its wild antics of the past three weeks. At noon Friday, it dropped to 35 inches above the government mark. All of Miss Janesville's friends and relatives strolled out of doors, Thursday night, and many of them went for drives in their petrol wagons. Many essayed to wear the soothing matted at the throat parlors are returning to their dwellings to remove the top quilt.

Eleven men were injured in a dust explosion at the Corn Products Refining company plant in Arzo, Ill.

### THE LIFE OF A HOME

A healthy, happy, contented wife is the life and joy of the home and the greatest inspiration a man can have. Yet how many homes in America are blighted by the ill-health and sufferings of the wife and mother. It may be backache, headaches, the tortures of a displacement or some other ailment peculiar to her sex, which makes her irritable, despondent and her whole life burden. Every woman in this condition should rely upon Lydia E. Pinkham's Vegetable Compound made from roots and herbs to restore her to health and happiness. For statistics prove that it benefits 98 out of every 100 women who try it.

### WINNERS PICKED IN ESSAY CONTEST

Prizes for best essays in the contest recently held by the local W. C. T. U. were distributed, Thursday afternoon, at a meeting in Library hall with the following result:

First prize, \$2, for ninth and tenth grade children went to Ruth Badger for her essay on "The Advantages of a Non-Smoker Against a Smoker."

Nora Glancy, same topic, second prize; Joseph Melan, third prize, \$1, with an essay on "Why the Sale of Wine and Beer Should Not Be Legalized." Gladys Teiga received first prize for the sixth grade children with an essay entitled, "The Danger Rolled Up in a Cigarette."

These essays were delivered by their authors at this meeting as well as those written by Mabel Melan and Mildred Dixon which received honorable mention, although not receiving prizes.

A. C. Preston gave a helpful talk illustrated by charts on the danger to normal growth in the use of cigarettes, and several musical selections were rendered by a group of children directed by Mrs. J. R. Nichols.

The children taking part were Gwatha and Margaret Timm, Dorothy and Georgine Yeomans, Jean Eldredge and Lorraine Spady, Ellen Fisher and Mildred Dixon gave vocal solos. Mrs. George W. Allen had charge of the contest for the local union. The meeting was presided by a regular business meeting of the local organization with Mrs. O. W. Atton presiding.

Beginning Saturday, Apr. 21, 1923. Ending Saturday, Apr. 28, 1923

From Leath's Famous "HOTEL MATTRESS MILLS" Direct To You At Great Savings.

At no other place in this city can you get such exceptional Bedding values—the reason is because all Leath Mattresses and Pillows are made right in our own large Mattress Mills. It simply means you get the advantage of buying right from the maker thereby saving the middle profit others must charge you on top of their own profit. Our Mattresses have long been noted for their comfort—take advantage of this big value-giving Bed and Bedding Week and enjoy comfortable beds in every bedroom.

Four Hours Sleep On Our Mattress equals six on others.
